HOW TO USE THIS RECORD

Log every service you deliver — regardless of whether you are managing an artist, running a booking agency, operating as an independent musician, or providing consulting to the music industry. Accurate service records protect you in disputes, support invoicing, strengthen grant applications, and provide evidence for SARS tax submissions. Complete every column for each entry and attach or reference supporting documentation (emails, contracts, receipts) where possible.

Service Type: Select the most appropriate category from the reference list on page 3. Duration / Qty: Record hours spent, number of sessions, or units delivered. Use the Expense Tracker on page 4 to record all project-related expenditure alongside this service log.

ASSOCIATED EXPENSE TRACKER

Record all expenses incurred in delivering the services logged above. Keep original receipts and invoices. In South Africa, VAT-registered practitioners may claim input VAT on qualifying expenses — consult your accountant. Mark each item as Billable (Y) if it will be passed to the client, or Non-Billable (N) if it is an internal business cost.
