

Stage Plots & Input Lists

The purpose of stage plots and input lists are to let the buyer (club owner, festival buyer, sound techs, promoter, etc.) know where vocals, mic stands, monitors and other elements need to be situated; and the equipment that needs to go with it. If you don't have Photoshop skills or a way to put them together digitally, you can draw them out on paper and take a picture of it. They don't need to be advanced or special looking at all. Just legible. The amount of detail you include is up to you, but you need to communicate your needs. See some example screenshots below!

Example Input List:

- Kick
- Snare
- Overhead
- Djembe
- Bass
- Electric Guitar
- Acoustic Guitar
- Keys
- Vocal
- Kick Drum / Beta 52 / Short Boom
